

Charlevoix County Herald.

Vol. 10

EAST JORDAN, MICHIGAN, SATURDAY, APRIL 21, 1906.

No 16

East Jordan's Summer Resort.

The new summer resort project is now well under way. A neatly printed plat with an accompanying clean map of Michigan showing East Jordan with its unusually fine transportation facilities is out, and an artistically printed abstract of the property the data for which was furnished by Mr. F. A. Kenyon, Abstractor, is ready to deliver to each purchaser of a lot. The location is the 80 rods lake frontage of Government Lot No. 3 of Sec. 9 South Arm Township which is commonly known as the Houghton property.

The surveyors will soon be on the premises staking out the Streets and Lots, and before the resort season of 1906 opens there will probably be from a dozen to twenty cottages ready for summer visitors. This is certainly an ideal location, lying high and dry as it does, with a gradual slope to the lake, a portion of it having beautiful maple trees, and the balance in the opening with only occasionally a nice tree for shade, giving an opportunity for a choice to suit the varied ideas of purchasers. Monroe Creek, one of the beautiful Trout Streams winds through a portion of the plat and is conveniently located for visitors with rod and line to follow back through the beautiful woods towards its source, which will afford fine recreation in that line. A portion of the above is gradual out to deep water, with a sandy bottom so that bathing can be made a popular pastime, while the beautiful waters of South Arm of Pine Lake afford unequalled facilities for boating of all kinds, as well as for Bass, Pickerel and Perch fishing. The promoter of this enterprise, Mr. Bushman of Detroit is a hustler, and with the co-operation of local citizens there is no reason why the Resort business cannot be made an important adjunct to East Jordan's excellent resources.

As soon as the cottage feature of the resort is well under way Mr. Bushman says he expects to organize a stock company and build a Mammoth Summer Hotel, and has reserved in his plat a block for that purpose.

A liberal proposition is open to local people who desire to help push this resort project and at the same time help themselves, the details of which can be learned by inquiring of Mr. W. A. Loveday who assisted in getting Mr. Bushman interested.

Some of our enterprising merchants have already secured some of the materials for building cottages, and quite a number are talking of putting up some. Mr. Bushman has plans out for several and expects to commence to build within the next few weeks, and is busy getting others in Detroit and elsewhere interested.

Booklover's for May.

Illustration, to accompany Actors All, Arthur Beecher; The Truth About Panama, II. The Canal, Henry C. Rowland M. D.; The Way of a Maid, a story by Will Payne; The Morocco Conference, Ion Perdicaris; The Wheat, a poem by Editha Kemper Adams; Actors All, a story by James Branch Cabell; The Failure of the Educated American Indian, Frances E. Leupp; A Corner of an Old Pasture, Frank H. Sweet; The Looting of Alaska Rex E. Beach; The Code at West Point and Annapolis; The Survival of the Fittest, Tudor Jenks; The Brook by the Way, a poem by Abigail James; Modern Quarantine, Alvah H. Doty, M. D.; The Ironie Monte Carlo, Ward Muir; In Curb of Her Soul, a serial story by F. J. Samson ("J. S. of Dale"); From the Cell, a story by Arthur E. McFarlane; One Came Before Me, a sonnet by Theodosia Garrison; The Way of the Land, a story by Karl Edwin Harriman; Babel, a poem by Isabella Howe Fiske; The New Inland Sea in California, Frank G. Martin; The March of the Seasons, a story by Mary Heaton Vorse; The Industrial Transition of the United States, Charles M. Harvey; Current Reflections, Edward S. Martin; The World for a Month and The Books of the Month. D. Appleton & Company, 436 Fifth Ave., New York.

The newspaper is a law book for the indolent, a sermon for the thoughtless, a library for the poor and an admonisher for the lawless. It may stimulate the most indifferent, but it cannot be published without cost and sent free to subscribers. This is no joke.

Michigan Crop Report.

Lansing, Mich., April 19, 1906. The temperature during March, according to the Michigan State Weather Bureau, was quite uniform throughout the State, the departure from the State being 4.4 degrees below the normal. The precipitation was, in the upper peninsula, 1.01 inches above the normal, in the northern counties 0.38 of an inch below the normal, in the central counties 0.45 of an inch, in the southern 0.33 of an inch and in the State 0.26 of an inch below the normal.

WHEAT.

The condition of wheat on April first was, in the southern counties, 75, in the central counties 73, in the northern counties 78 and in the State 75. Many crop correspondents report late sown wheat badly damaged by freezing and thawing and predict that a good deal of the wheat acreage will be plowed up. While early sown wheat tops have a brown appearance, correspondents are quite generally of the opinion that the roots are alive and that favorable April weather will increase the condition.

The average depth of snow on March 15th was, in the southern counties 1.29 inches, in the central counties 0.83 of an inch, in the northern counties 4.03 inches, and in the State 1.54 inches. On the 31st of March there was no snow in the southern and central counties and in the northern counties and State of 0.84 of an inch.

RYE.

The average condition of rye is 82 in the State and practically the same in each of the sections.

MEADOWS.

The average condition of meadows is, in the southern counties 82, in the central counties 85, in the northern counties 90 and in the State 83.

LIVESTOCK.

The average condition of horses in the State is 96 and of cattle, sheep and swine 95.

FRUIT.

Reports concerning fruit are quite favorable with the exception of peaches, although it is too early today definitely what the outcome will be. Some correspondents think the warm weather in January has damaged the fruit buds. The following table shows the prospect for an average crop of the various kinds of fruit in Northern Michigan: Apples, 91; Pears, 91; Peaches, 74; Plums, 81; Cherries, 96; Small fruit, 91.

GEORGE A. PRESCOTT,
Secretary of State.

Interscholastic Meet.

Charlevoix is making extensive preparations for the interscholastic field meet which will be held there May 26, for the first time in five years. A beautiful cup will be given the winning school, and medals to point winners. The fine new track begun there last year will be finished and put in the best condition for the meet.

The following schools compose the association and are expected to be present: Traverse City, Boyne City, East Jordan, Alpena Cheboygan, Central Lake, Charlevoix and Petoskey.

The list of events are as follows: 100 yard dash, 220 yard dash, 440 yard dash, 1 mile run, 1 mile run, 2 mile run, shot put, discus throw, hammer throw, 120 high hurdles, 220 low hurdles, high jump, pole vault, running broad jump and 1 mile relay race.

HOME MARKET

is the title of the first document of the Congressional campaign of 1906, issued by the American Protective Tariff League. The pamphlet is a reproduction of the great speech of Congressman John F. Lacey of Iowa, recently delivered in Congress. Send postal card request for free copy. Ask for Document No. 84, Address W. F. Wakeman Secretary, 339 Broadway, New York N. Y.

Sewing rockers have gone down, not in the basement of Emper Bros. but in price, and will be sold at cost for the next week.

The tar that is contained in Bee's Laxative Honey and Tar is harmless. It is not coal tar, but it is obtained from the pine trees of our own native forests. Bee's Laxative Honey and Tar is the best remedy for colds because it acts on the bowels—thus expelling all colds from the system. Bee's is the original Laxative Honey and Tar, and is best for coughs, colds, croup, whooping cough, lung and bronchial affections. Sold by Warner's Pharmacy.

Railroads Must Pay.

Four of the railroad companies have paid their arrears of taxes amounting to more than two millions of dollars, with the taxes of the present year which were paid at the same time. They did not include, however, the interest due upon the delinquent taxes, and Auditor General Bradley declines to receipt for the partial. He holds the money for the present, to be credited up and receipted for when the payments are made complete, as they probably will be on further consideration; or, otherwise, the tender will be declined and proceedings begun for collection of the full amounts which the law requires the auditor to collect. The companies making these tenders are the Chicago & Northwestern, six hundred and forty-two thousand, Chicago, Milwaukee & St. Paul, one hundred and fifteen thousand seven hundred and fifty-seven; Duluth South Shore & Atlantic, three hundred seventy-six thousand three hundred and eighty-six, and the Lake Shore, one million dollars, lacking a little over forty thousand. About one third of the amount is the tax of 1905 which would become delinquent the first of May. The balance is already drawing interest at the rate of one per cent a month, and these partial tenders will not operate to stop the interest unless they are made complete.

The rank of the railroad of Michigan compared as to mileage is not the same as in respect to assessed valuations. The mileage of the principal lines shows like this:

Pere Marquette system, miles, 2072.
Michigan Central system, 1420.
Grand Trunk system, 758.
Lake Shore system, 720.
Chicago & Northwestern, 558.
Duluth, South Shore & Atlantic, 519.
Grand Rapids & Indiana, 487.
Chicago, Milwaukee & St. Paul, 338.
Ann Arbor, 292.
Detroit Mackinaw, 269.
About thirty smaller lines, 1610.

So there are in the State more than ten thousand miles of railroad lines, to which we may add over a thousand miles of electric interurban lines. The Wabash has only eighty miles in the State, but its valuation equals that of the Detroit & Mackinaw with about three and a third times its mileage—four million four hundred thousand dollars.

A liquid cold cure for children that is pleasant, harmless, and effective is Bee's Laxative Honey and Tar. Superior to all other cough syrups or cold remedies because it acts in the bowels. An ideal remedy for Coughs, Colds, Croup, Whooping Cough and all other curable lung and bronchial affections in child or adult. Pleasant to take. Sold by Warner's Pharmacy.

We are moving lots of

Shoes

These days and the beauty of moving is that

Every Shoe Gives Satisfaction.

Our customers know that our guarantee is as good as a bond. They know when we have told them about a pair of Shoes they can rely on our word.

Do you buy your Shoes of us? You ought to—your friends do. We want your trade—you want the Best Shoes. Let's get acquainted. It will be pleasant and profitable to all.

Yours to please,

C. A. HUDSON

FRED E. BOOSINGER

It Does Not Pay

To make undergarments at home. Time was when undergarments had to be made at home;—not so now. Ready-to-wear white wear is as daintily and as carefully made as though each garment were made in your home. Mills are perfectly equipped for producing undergarments; conditions surrounding their manufacture are sanitary; plants sunny and commodious—more so than the space allotted to the making of undergarments in the home—resulting in the production of attractive, cleanly garments at very low prices.

Everything marked in plain figures—you can see at a glance—the price of dainty, pretty designs, well-made—as carefully as though executed under your eye. And the qualities of cottons and trimmings are good—prices about one-half of the usual. We select our own fabrics and trimmings, ordering in large quantities, making a difference in the price. This method is to your advantage.

Corset Covers, 25c to \$1.50; Drawers, 25c to \$1.75; Gowns, 50c to \$2.00; Skirts, 75c to \$3.00.

The Vogue of White.

Yes, white is universal. The skirt may be any color; the waist must be white. No tasteful woman will this season be without her lingerie waists. She may have as many as she fancies, as the tightness of her purse strings will not restrict her—all our waists are so moderately priced that several are not a luxury but just the usual. Cheaper than they can be made at home and with a "style" that no home maker ever can put into them. 90c to \$3.00.

Quality First of All, Our Motto.

FRED E. BOOSINGER
